

# TOOLS & ACCESSORIES

## FLEXIBLE SHAFT WYCO BUFFER

Elwood Wyco flexible shaft machines are ideal for many uses. "The weight of the motor is on the stand...not in the hand."

- New aluminum castor four-legged base provides improved stability.
- Patented "Quick Change" Handpieces snap on or off quickly and easily.
- Handy Hanger for extra handpieces eliminates the need for messy tool trays.
- Elwood Wyco flexible shafts are covered with neoprene rubber. All shafts have a low-friction inner lining which protects the core and makes the unit run smoother and last longer.
- Motors are: capacitor start, constant speed; 115/230 volt; single phase; 60-cycle AC with toggle switch; and 7 foot, 3-wire cord and safety plug.
- Motor base swivels on ball bearings and is mounted on a large, four legged stand with easy rolling coasters.

### Single Speed

Elwood Wyco Single-Speed Direct Drive machines are furnished with 1725 or 3450 rpm speeds and in 1/3, 1/2 and 3/4 hp models. Standard equipment furnished with above machines includes: one flexible shaft, one handpiece (as listed), one set of wheel arbors, and one set of wrenches.

**Optional Equipment:** One wheel guard (as listed).

CODE	DESCRIPTION	H.P.
49-493	Complete Wyco buffer	1/2
49-495	Complete Wyco buffer	3/4

## WYCO ADAPTER

CODE	DESCRIPTION
49-401	Adapter 1/2" for 49-3 (# 3400-1/2)
49-402	Adapter 5/8" for 49-3 (# 3400-5/8)
49-403	Adapter 1/2" for 49-5 (# 550MP-3/4)
49-404	Adapter 5/8" for 49-5 (# 550MP-5/8)

## WYCO CABLES

CODE	DESCRIPTION
49-405	External casing for 49-3 (# K-2)
49-406	External casing for 49-5 (# K-30)
49-407	Internal core for 49-3 (# C-2)
