FLEXTRA, for a Durable and Flexible Repair

Vulcan-Vulcap Industries, leader for over 75 years in tire retreading and OTR section repair equipment, in partnership with ITRS is launching a revolutionary new product FLEXTRA developed to last longer and designed to be stronger and more flexible.

CROWN REPAIR FOR A GREATER DURABILITY

FLEXTRA is a two piece design making it stronger and more flexible than anything in the industry giving your repair greater durability and longer life.

* We suggest for large or extreme injuries FLEXTRA cable be placed as reinforcement on the tread side as well.

PRODUCT #	CABLE CODE	SIZE	PRODUCT #	COVER CODE	SIZE	QTY/BOX
